

**Attachment No. 2 – City Council Study Session
September 10, 2013**

**City of Beverly Hills
North Santa Monica Blvd Reconstruction**

Project Goals

- Rehabilitate the physical infrastructure along the corridor, including pavement, drainage, sewer and water lines, and street lighting
- Consider a “**Complete Streets**” policy to enhance safety and promote transit and non-motorized modes (bicycling and walking).
- Respect the character of the corridor; including preservation of green space
- Maintain access to the Beverly Hills Business Triangle
- Minimize construction impacts on businesses and residents
- Maintain vehicular flow along the corridor

FEATURES

- (2) ON STREET BIKE LANES
- URBAN GREENING / LANDSCAPED MEDIAN

MODIFIED CURB TO CURB WIDTH

Initial Set of Concept Alternatives

Alternative	Cross Section	1. Rehabilitate Infrastructure	2. Consider Safe Complete Streets	3. Respect Character, Preserve Green Space	4. Maintain Access to Business Triangle	5. Minimize Construction Impacts	6. Maintain Vehicular Flow	Composite Score	Disposition
Existing									
1. Existing Cross Section		●	●	●	●	●	●	●	Consider
2. Eastbound Bike Lane Westbound Sidewalk		●	●	●	●	●	●	●	Consider
3. Two Bike Lanes		●	●	●	●	●	●	●	Consider
4. Two Bike Lanes with Median		●	●	●	●	●	●	●	Consider (Refinement of Alt 3)
5. Off Street Bike/Ped Pathway		●	●	●	●	●	●	●	Consider
6. Two Bike Lanes Eliminate Left Turns		●	●	●	●	●	●	●	Drop
Legend		● - Satisfies Project Goal ● - Partially Satisfies Project Goal ● - Does Not Satisfy Project Goal							

Moving Forward

- **Development of Preferred Concept**
 - “Base” cross section will be adapted by segment
- **Construction Mitigation Planning**
 - Sequencing, concurrent activities, and mitigation
- **Community Input**
 - Key determinant for both issues
