Project Advisory Group (PAG)

- Directed by Council at project award
 - “At the discretion of City, the PAG may include members of the public and/or other organizations... to **provide technical and contextually appropriate input** into City’s complete streets planning process.”
- PAG representatives will be sought from the following:
 - LA County Bicycle Coalition
 - Better Bikes Beverly Hills
 - LA Walks
 - Beverly Hills Chamber of Commerce
 - City of West Hollywood
 - Other City residents

Stakeholder Engagement

- First community workshop in February 2018
- Workshop attendees will establish project goals and “guiding principals”
- Subsequent events/engagement:
 - March 2018
 - April 2018
 - May 2018
 - June 2018
 - July 2018
- Will seek to combine with other planned events

Values

- Review of past and ongoing projects
- Will be used to develop Goals
- Initial values:
 - Mobility
 - Safety & security
 - Simplicity
 - Solutions for residents, visitors, & employees
 - Business & resident friendly

City of Beverly Hills General Plan
Circulation Element

Complete Streets—Streets that include facilities and designs that enable safe access for all users (i.e., pedestrians, bicyclists, motorists and transit riders) of all ages and abilities with characteristics such as comprehensive, integrated, and connected network; balanced design; variety of uses and activities that create a varied streetscape; design that relates well to bordering uses and allows for continuous activity; pedestrian and biking facilities that promote safety and maximize access to bordering uses; aesthetically designed street lights that provide sufficient illumination of sidewalks; consistent landscaping that includes street trees and landscaped medians and sidewalks; sustainable design that minimizes runoff, minimizes heat island effects, responds to climatic demands, and conserves scarce resources; and well-maintained facilities.
